**Subject:** Dimock Rollout: Conversation with John Smelko -

Earlier today I had a conversation with John Smelko, Cabot Oil and Gas. He expressed an interest in several things:

- splitting samples with Region III on the resampling we are planning
- getting a copy of our sample analysis results
- meeting with EPA and the State to discuss the sample results.

I advised him that we could split samples provided we get consent from the home owner. I think we are already preparing sample analysis packages that we can share with him. Finally, I said we may need to postpone the meeting for a short period because the staff involved with Dimock will be involved in the next three weeks with the sample analysis roll out.

Thanks.
